INTRODUCTION

The County Government of Wajir has received a grant through the Kenya Urban Support Program (KUSP) in Financial Year 2018/2019 to apply in part or in whole in development of Strategic Integrated Development Plan (IDep) for Wajir Municipality. The County Government, through the Municipal Board of Wajir Municipality intends to engage services of consultancy firm with relevant experience, competence and expertise in the said project.

BACKGROUND

Globally, Rapid urbanization presents both an opportunity and a challenge. It is projected that about 50% of the Kenyan population will be urbanized by the year 2030. Urban areas continue to play a critical role in national development; and contribute about 70% of the gross domestic product (GDP).

However, Urbanization can bring positive or negative impact. Poorly planned urban areas can be catastrophic. Urban towns will easily become centers of poverty, inequality and violence. At the same time, if urban areas are well managed, they serve as engines of growth and provide people with better job opportunities, improved health care, housing, safety and social development. The main challenge however, is that it is expected that in the next three or so decades, the current population will be concentrated in the urban areas.

To ameliorate the challenges and reap benefits from the opportunity urbanization presents, the GoK enacted and passed a revised National Urban Development Policy (NUDP) that steers urban development which yielded Kenya Urban Programme (Ken UP) as a development strategy giving life to the policy. The National Urban Development Policy is part of the Government's efforts to implement the provisions on urban development contained in the Constitution, particularly in Article 176 and 184 dealing with devolution, classification and management of urban areas, including public participation. It is also in line with Vision 2030 – Kenya's development blue print that envisages transition of the country to middle income – come with majority of its population living in urban areas.

Kenya Urban Support Programme (KUSP) is a GoK project supporting the KenUP that seeks to integrate counties in setting foundation for urban development. KUSP seeks to;

Special Notes

1. The Lump-Sum price is arrived at on the basis of inputs – including rates – provided by the Consultant. The Client agrees to pay the Consultant according to a schedule of payments linked to the delivery of certain outputs, usually reports. Lump-sum contracts have the simplicity of administration, the Client having only to be satisfied with the outputs without monitoring the staff inputs and should be used for large Assignments in for example Design; Engineering; Supervision and Management Services; Master plans; Economic and Feasibility studies; and Surveys.
2. The Contract includes four parts: Form of Contract, the General Conditions of Contract, the Special Conditions of Contract and the Appendices. The Client using this standard contract should not alter the General Conditions. Any adjustment to meet any specific project features should be made only in the Special Conditions.
